

# Fast Facts **ABOUT CALIFORNIA'S PUBLIC HEALTH CARE SYSTEMS**

California's 21 public health care systems provide a range of comprehensive services, including primary care, outpatient specialty care, emergency and inpatient services, rehabilitative services, and in some instances, long-term care. **Though accounting for just 6% of hospitals in the state, these public health care systems:**

- Serve more than 2.85 million patients annually
- Operate in 15 counties where more than 80% of the state's population lives
- Provide 40% of all hospital care to the remaining uninsured in California
- Provide nearly 35% of all hospital care to Medicaid (Medi-Cal) beneficiaries in the communities they serve
- Represent a diverse patient population with 35% of patients speaking a primary language other than English
- Serve as the primary care provider for more than 500,000 Medi-Cal enrollees who have gained coverage since 2014
- Operate over half of all California's top-level trauma and burn centers
- Provide over 10 million outpatient visits each year
- Operate more than 200 outpatient clinic facilities
- Train half of all new doctors in hospitals across the state
- Employ more than 91,000 individuals

## Serving Patients with Social Needs

In public health care system communities:

**123**  
**thousand**  
 individuals  
 are homeless

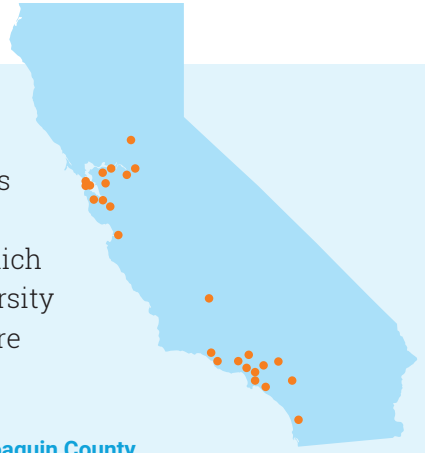

**3.4 million**  
 individuals  
 experience  
 food insecurity

**3.8 million**  
 individuals live  
 below the federal  
 poverty line

**2.3 million**  
 individuals  
 remain  
 uninsured

## CAPH Members

The California Association of Public Hospitals and Health Systems (CAPH) represents California's 21 public health care systems, which include county-affiliated facilities and University of California medical centers, forming the core of the state's health care safety net.

### Alameda County

## About CAPH

As a non-profit trade organization, CAPH works to strengthen the capacity of its members to advance community health, ensure access to comprehensive, high-quality, culturally sensitive health care services for all Californians, and educate the next generation of health care professionals.

## Our Mission

For over 30 years, CAPH has passionately believed that everyone deserves an equal opportunity to enjoy good health – regardless of insurance status or ability to pay – and this belief is what drives our policy and advocacy agenda.
