

Andrea Daugherty, MHA, CHCIO, CISSP

Andrea Daugherty is the inaugural Chief Information and Digital Transformation Officer at Arrowhead Regional Medical Center, San Bernardino County's Level I trauma and teaching hospital. As the first IT executive in ARMC's history, she is unifying clinical applications, informatics, infrastructure, cybersecurity, analytics, and health information management into one function built to drive operational efficiency and expand access. She leads ARMC's enterprise AI strategy and governance, from ambient clinical documentation to coding and revenue integrity, returning time to clinicians and strengthening financial sustainability. She is also expanding Epic Community Connect toward one county, one record for Medi-Cal families across a 20,000-square-mile service area. Andrea previously served as CIO at Dell Medical School at The University of Texas at Austin and inaugural Head of Digital Healthcare at SHI International. She was named one of Becker's Chief Transformation Officers to Know in 2026.
